EDUCATION

Kishinchand Chellaram College   Mumbai, India
Bachelor of Computer Science | GPA: 10.0   **June 2022 – April 2025**
St. Xavier's College   Mumbai, India
Senior Secondary | Grade: 80%   **August 2020 – March 2022**

SKILLS

- **Development**   HTML, CSS, ReactJS, Bootstrap, ASP.NET, Jetpack Compose, Express, NodeJS, Flask, FastAPI
- **Languages:**   Python, Java, Kotlin, C#
- **Tools**   Git, GitHub, Android Studio
- **Databases**   MySQL, MSSQL Server, MongoDB, PostgreSQL

WORK EXPERIENCE

Full Stack Developer Intern
Unified Mentor | Remote   **April, 2025 [Ongoing]**
- Following a structured learning program with daily tasks, working on 1 basic and 2 advanced full-stack projects, gaining hands-on experience in frontend and backend development, and submitting a final project with documentation as part of the internship deliverables.

PROJECTS

Leather Website   **Ongoing**
- Developing a premium leather boutique website using **React Vite, Express.js, and MongoDB Compass**, with **dynamic filtering**, **cart functionality**, **and OTP-based authentication**.
- Implementing a **secure admin panel with secret key authentication** for product management and order handling

Docuvault: Personal Web-based e-document storage | LINK   **April 2025 – May 2025**
- **Developed and completed Docuvault**, a secure document management platform that supports efficient uploads with backend compression—improving storage, organization, and sharing through expiring link generation. Features also include activity log tracking and storage monitoring.
- **Integrated Google Gemini API** to enable users to generate ready-made documents in **HTML/Tailwind CSS** using prompt-based input. The generated code is parsed into a visual format for easy download as Word or PDF.
- **Tech Stack**: FastAPI (with JWT)**, React.js with Vite, MongoDB with Atlas**

Unite: Real Time Chat Web App – Internship at Unified Mentor | LINK   **April 2025**
- **Built a full-stack real-time chat application** with OTP signup, friend requests, profile updates, public/private rooms, and file sharing using **React (Vite), Node.js, and PostgreSQL**.
- **Integrated Socket.IO for real-time messaging** and deployed the app with **Netlify** (frontend) and **Render** (backend & DB), ensuring seamless performance and scalability.

Student Academic Tracker with Machine Learning | LINK   **June 2024 – February 2025**
- Developed a dynamic and responsive web-based platform using **ReactJS and MUI**, providing a detailed student overview for parents with a custom API backend and **SQL Server** Database.
- Implementing **robust encryption and multi-layered security**, **integrating machine learning (logistic regression + decision tree via voting ensemble** for **attendance risk assessment**, and **linear regression for marks prediction**).

Pet Donation Landing Page | LINK   **August 2024**
- Developed a responsive landing page for pet donation using **ReactJS and Bootstrap**, ensuring a user-friendly and visually appealing design.

Education & Internship Portal Frontend | LINK   **May 2024**
- Designed a **responsive front-end** using **ReactJS and Vanilla CSS** as part of an **internship application**, focusing on clean UI and seamless user experience.

Restaurant Website | LINK   **December 2023 – February 2024**
- Developed a **dynamic and responsive restaurant website** using **ASP.NET and MS SQL**, featuring **admin login with OTP, user profiles, and cart functionality** for seamless order management.

Quiz App   **September 2023**
- Simple quiz app made using **Java** and **Android Studio.**

CERTIFICATES

UI in Android (META) | [CERTIFICATE](#)   **January 2025**
- Online course in which **Jetpack Compose** and **Kotlin** were taught.

UI/UX Design (META) | [CERTIFICATE](#)   **July 2024**
- Online course by **META** involving aspects of design and **Figma** platform.

Kotlin Fundamentals (META) | [CERTIFICATE](#)   **June 2024**
- Online course by **META** in which basic **fundamentals of Kotlin** were covered.

React Basics (META) | [CERTIFICATE](#)   **May 2024**
- Online course by **META** in which root concepts of **ReactJS** like states, components and props were covered.

Web Development (John Hopkins University) | [CERTIFICATE](#)   **December 2023**
- Online course **by Johns Hopkins University** in which **HTML, CSS, JavaScript** and dynamic website was worked on.

EXTRA-CURRICULAR

Science Honors Program (SHP) to learn research ethics, report writing, and related methodologies.   **Ongoing**

Anubhav Research Convention presented my research on 'Bridging the Gap' at this prestigious convention.   **February 2025**

Avishkar Research Convention a research-oriented program to present my research 'Bridging the Gap'.   **December 2024**

Rotaract Club of KC (General Body Member, 1 year) – Actively participated in meetings, events, and collaborations.   **August 2022**
